

Youth 4 Success Platform

Youth 4 Success Platform is a non-profit organization that focuses on reducing the four major barriers youth may face when it comes to finding employment and continuing higher education. We take action in 4 cities, Toronto, Montreal, Ottawa and Edmonton. As of August 2021, we will also take action in Vancouver, Regina, Hamilton and Kitchener.

Their focus includes Substance Abuse Prevention, Criminal Record Acknowledgment, Lack of Language and Education Gaps. Their volunteers are mainly university students and our target audience is youth aged 15-24. They host seminars, clubs, talk series and other events that are safe environments for youth to ask questions, gain communication skills and also make new friends.

Unfortunately, due to the COVID-19 pandemic, youth are more prone to these 4 issues. Drug addiction problem due to isolation and the education gap due to online schooling.

They are trying to raise awareness about these issues by creating various online content on Youth 4 Success Social Media platform.

These are their social media accounts
